PROFESSIONAL SUMMARY

MERN Stack Developer with 2+ years of experience building and launching production web applications using **React.js, Next.js, TypeScript, Node.js and MongoDB**. Proven track record in architecting real-time geospatial tracking systems, event ticketing platforms, and scalable e-commerce products from concept to deployment. Strong background in startup execution, product ownership, and delivering high-performance solutions for active user bases.

TECHNICAL SKILLS

Languages & Core:	TypeScript, JavaScript (ES6+), HTML5, CSS3
Frontend:	React.js, Next.js (SSR/SSG), Zustand, Redux, Rest API, Tailwind CSS
Backend & DB:	Node.js, Express.js, MongoDB, PostgreSQL, Prisma
Cloud & Tools:	Git, GitHub, Vercel, AWS Amplify, Google Cloud Platform (GCP), n8n, CLI, AI Workflows

WORK EXPERIENCE

React Developer — Mapview Geographical Solutions Pvt Ltd. Kozhikode | 06/2025 – 07/2026

- Engineered fleet management and vehicle tracking applications using **React.js, Next.js, AWS and TypeScript**.
- Built interactive map interfaces, historical playback systems, and real-time dashboards supporting **1,000+ vehicles** and **500+ active subscriptions**.
- Integrated geospatial APIs and optimized frontend rendering performance for large-scale real-time datasets.
- Improved maintainability and code quality through reusable component design and modular architecture.

Founding Full Stack Developer — Plooto (Event Tech Startup) Kozhikode | 07/2024 – 05/2025

- Co-founded and architected an end-to-end event discovery and ticketing platform using **Next.js, TypeScript, Node.js, Git, Amplify, Tailwind and MongoDB**.
- Designed and built secure authentication, event management workflows, and integrated a payment gateway using **RazorPay**.
- Onboarded **50+ live events**, attracted **1,000+ active users**, and processed 128 bookings generating **₹30,000+ GMV**.
- Led ticketing operations for major events (e.g., Gokulam Galleria) and maintained high availability production systems.

SELECTED PROJECTS

WheelzCart — Automotive Spare Parts Platform 03/2026 – 04/2026

- Developed a full-stack e-commerce platform using **Next.js, Node.js, and MongoDB** with vehicle compatibility-based product filtering.
- Integrated WhatsApp ordering workflows and improved SEO performance through Server-Side Rendering (SSR) and **Static Site Generation (SSG)**.

KaligraphInfoSystems — Printer Listing Platform (Freelance) 01/2025 – 02/2025

- Delivered a custom printer listing platform from initial UI wireframe to deployment using **Next.js, GitHub and Tailwind CSS**.
- Implemented dynamic preview features and fully responsive user interface components based on client specs.

AI GAMING — Client Marketing Website 04/2024 – 05/2024

- Built a high-performance website using Webflow, **n8n** and custom code enhancements beyond native capabilities.
- Optimized page speed, accessibility, and search engine visibility through semantic optimization.

EDUCATION

**B.Sc. Mathematics with
Computer Science Elective**

University of Calicut | 04/2024

Web Development (MERN Stack)

FinEdge IT Finishing School | 01/2021

CERTIFICATIONS

- Google Analytics Certification** (ID: 57183135199332)
- Full Stack Developer Academy** (ID: FSDB0042)
- MERN Stack Front to Back** — Udemy
- React Development Certified** — Internshala
